FISCAL ANALYSIS

ASSUMPTION

In response to the previous version of this proposal, officials from the **Special School District (SSD)** stated the language of this proposal is very broad and may result in more lawsuits by parents against school districts. As such, the SSD believes this proposal would increase legal fees for the District. However, it is not possible to estimate the increased cost.

Oversight assumes the potential for litigation to be speculative and, therefore, assumes the SSD will be able to absorb any potential fiscal impact resulting from this proposal.

Officials from the **Office of Attorney General** assume any potential costs arising from this proposal can be absorbed with existing resources.

Officials from the **Department of Social Services (DSS)** state there is no direct fiscal impact to the DSS. The Department's actions are based on state law and the doctrine of the best interest of the child and do not conflict with the provisions of this proposal.

Officials from the **Office of Administration**, the **Office of State Courts Administrator**, the **Department of Elementary and Secondary Education**, the **Department of Mental Health**, and the **Department of Health and Senior Services** each assume the proposal would not fiscally impact their respective agencies.

In response to the previous version of this proposal, officials from the **Parkway School District** assume the proposal would not fiscally impact their agency.

No additional school districts responded to **Oversight's** request for a statement of fiscal impact.
